ABSTRACT (ENGLISH)	iv
ABSTRACT (THAI)	v
LIST OF TABLES	x
LIST OF ABBREVIATIONS	xiv
CHAPTER I INTRODUCTION	
1.1 Background and rationale	1
1.2 Objectives	4
CHAPTER II LITERATURE REVIEW	
2.1 Sodium	5
2.1.1 Sources of sodium	5
2.1.2 Functions of sodium	5
2.1.3 Recommended of sodium intake	6
2.2 Sodium status	8
2.3 Assessment of sodium intake	8
2.3.1 Dietary assessment method	8
2.3.2 Measurement of urinary excretion	9
2.4 Nutritional status with sodium status	10
2.5 Sodium reduction	11
2.6 Adolescent	12
CHAPTER III MATERIALS AND METHODS	
3.1 Study design	13
3.2 Subjects	13
3.2.1 Inclusion criteria	13
3.2.2 Exclusion criteria	13
3.2.3 Subjects enrollment and informed consent	13

CONTENTS (cont.)

	Page
3.3 Ethical approval remarks	14
3.4 Data collections	14
3.4.1 General information	14
3.4.2 Nutritional status	14
3.4.2.1 Body composition	14
3.4.2.2 Blood chemistry	14
3.4.2.3 Dietary assessment	14
3.5 Criteria for nutritional assessment	15
3.6 Nutritional assessment	16
3.7 Nutritional therapy	16
3.8 Statistical analysis	17
CHAPTER IV RESULTS	
4.1 Subjects	18
4.2 Characteristics of PCCCR subjects	18
4.3 Questionnaires in 813 subjects	20
4.3.1 General information	20
4.3.1.1 Primary information	20
4.3.1.2 Socio-economic information	20
4.3.1.3 Health information	20
4.4 Nutritional therapy on nutritional status (total subjects)	25
4.4.1 Body composition	25
4.4.2 Blood chemistry	33
4.5 Effect of nutritional therapy on nutritional status of sodium (total subjects)	37
4.5.1 Sodium knowledge	37
4.5.2 Sodium and health	38
4.5.3 Sodium and food behavior	38

CONTENTS (cont.)

	Page
4.6 Nutritional therapy on nutritional status (21 obese subjects)	58
4.6.1 Body composition	58
4.6.2 Blood chemistry	64
4.7 Effect of nutritional therapy on nutritional status of sodium (21 obese subjects)	69
4.7.1 Sodium knowledge	69
4.7.2 Sodium and health	69
4.7.3 Sodium and food behavior	69
4.8 Nutritional therapy on urinary sodium excretion (21 obese subjects)	76
4.9 Nutritional therapy on nutritional status (50 LDL subjects)	78
4.9.1 Body composition	78
4.9.2 Blood chemistry	84
4.10 Effect of nutritional therapy on nutritional status of sodium (50 LDL subjects)	89
4.10.1 Sodium knowledge	89
4.10.2 Sodium and health	89
4.10.3 Sodium and food behavior	89
4.11 Nutritional therapy on urinary sodium excretion (50 LDL subjects)	96
4.12 Nutritional therapy on nutritional status (4 obese + LDL subjects)	98
4.12.1 Body composition	98
4.12.2 Blood chemistry	103
4.13 Effect of nutritional therapy on nutritional status of sodium (4 obese + LDL subjects)	108
4.13.1 Sodium knowledge	108

CONTENTS (cont.)

	Page
4.13.2 Sodium and health	108
4.13.3 Sodium and food behavior	108
4.14 Nutritional therapy on urinary sodium excretion (4 obese + LDL subjects)	116
CHAPTER V DISCUSSION	117
5.1 Nutritional status of 813 PCCCR subjects	118
5.1.1 Body composition	118
5.1.2 Anemia, hyperuricemia, and dyslipiemia	121
5.2 Questionnaires on sodium knowledge, health and food behavior	125
5.2.1 Sodium knowledge	126
5.2.2 Sodium and health	126
5.2.3 Sodium and Food behavior	127
5.3 In 21 obese subjects	128
5.4 In 50 LDL subjects	133
5.5 In 4 obese + LDL subjects	140
CHAPTER VI CONCLUSION	144
6.1 Nutritional status	144
6.2 Nutritional therapy	145
6.3 Sodium status	146
6.4 Sodium reduction	147

LIST OF TABLES

Table	Page
4.1 Characteristic of PCCCR subjects classified by sex and class level	19
4.2 Socio-economic informations	21
4.3 The parental occupations	22
4.4 Education level of parents	22
4.5 Health informations I	23
4.6 Health informations II	24
4.7 Means ($\pm$ SD) of age and body composition parameters of M1-M3 subjects classified by sex	26
4.8 Means ($\pm$ SD) of age and body composition parameters of M4-M6 subjects classified by sex	27
4.9 Body weight status classified by BMI-for age	30
4.10 Body fat status classified by body fat (%bw)	31
4.11 Body weight and body fat status	32
4.12 Means ($\pm$ SD) of blood chemistry parameters classified by sex	34
4.13 Hemoglobin, blood glucose and uric status classified by sex	35
4.14 Serum lipid profile status classified by sex	36
4.15 Percentage of subjects answered sodium questionnaires classified by sex and class level	42
4.16 Sodium knowledge of total subjects	43
4.17 Sodium knowledge of 379 M.1-M.3 subjects	44
4.18 Sodium knowledge of 405 M.4-M.6 subjects	45
4.19 Sodium and health of total subjects	46
4.20 Sodium and health of 379 M.1-M.3 subjects	47
4.21 Sodium and health of 405 M.4-M.6 subjects	48
4.22 Sodium and food behavior of total subjects I	49

LIST OF TABLES (cont.)

Table	Page
4.22 Sodium and food behavior of total subjects II (cont.)	50
4.22 Sodium and food behavior of total subjects III (cont.)	51
4.23 Sodium and food behavior of 379 M.1-M.3 subjects I	52
4.23 Sodium and food behavior of 379 M.1-M.3 subjects II (cont.)	53
4.23 Sodium and food behavior of 379 M.1-M.3 subjects III (cont.)	54
4.24 Sodium and food behavior of 405 M.4-M.6 subjects I	55
4.24 Sodium and food behavior of 405 M.4-M.6 subjects II (cont.)	56
4.24 Sodium and food behavior of 405 M.4-M.6 subjects III (cont.)	57
4.25 Means ($\pm$ SD) of age and body composition parameters of 21 obese subjects classified by sex I	60
4.25 Means ($\pm$ SD) of age and body composition parameters of 21 obese subjects classified by sex II (cont.)	61
4.25 Means ($\pm$ SD) of age and body composition parameters of 21 obese subjects classified by sex III (cont.)	62
4.26 Body weight and body fat status of 21 obese subjects	63
4.27 Means ($\pm$ SD) of blood chemistry parameters of 21 obese subjects classified by sex	65
4.28 Hemoglobin, blood glucose and uric status of the 21 obese subjects classified by sex	66
4.29 Serum lipid profile status of the 21 obese subjects classified by sex	67
4.30 Percentage of anemia, hyperuricemia, hypertriglyceridemia, and hypercholesterolemia of 21 obese subjects	68
4.31 Sodium knowledge of 21 obese subjects	71
4.32 Sodium and health of 21 obese subjects	72
4.33 Sodium and food behavior of 21 obese subjects I	73

LIST OF TABLES (cont.)

Table	Page
4.33 Sodium and food behavior of 21 obese subjects II (cont.)	74
4.33 Sodium and food behavior of 21 obese subjects III (cont.)	75
4.34 Means $\pm$ SEM and range of urinary sodium excretion of 21 obese subjects	77
4.35 Means ($\pm$ SD) of age and body composition parameters of 50 LDL subjects classified by sex I	80
4.35 Means ($\pm$ SD) of age and body composition parameters of 50 LDL subjects classified by sex II (cont.)	81
4.35 Means ($\pm$ SD) of age and body composition parameters of 50 LDL subjects classified by sex during the study III (cont.)	82
4.36 Body weight and body fat status of 50 LDL subjects	83
4.37 Means ($\pm$ SD) of blood chemistry parameters of 50 LDL subjects classified by sex	85
4.38 Hemoglobin, blood glucose and uric status of the 50 LDL subjects classified by sex	86
4.39 Serum lipid profile status of the 50 LDL subjects classified by sex	87
4.40 Percentage of anemia, hyperuricemia, hypertriglyceridemia, and hypercholesterolemia of 50 LDL subjects	88
4.41 Sodium knowledge of 50 LDL subjects	91
4.42 Sodium and health of 50 LDL subjects	92
4.43 Sodium and food behavior of 50 LDL subjects I	93
4.43 Sodium and food behavior of 50 LDL subjects II (cont.)	94
4.43 Sodium and food behavior of 50 LDL subjects III (cont.)	95

LIST OF TABLES (cont.)

Table	Page
4.44 Means $\pm$ SEM and range of urinary sodium excretion of 50 LDL subjects	97
4.45 Means ($\pm$ SD) of age and body composition parameters of 4 obese + LDL subjects classified by sex I	99
4.45 Means ($\pm$ SD) of age and body composition parameters of 4 obese + LDL subjects classified by sex II (cont.)	100
4.45 Means ($\pm$ SD) of age and body composition parameters of 4 obese + LDL subjects classified by sex III (cont.)	101
4.46 Body weight and body fat status of 4 obese + LDL subjects	102
4.47 Means ($\pm$ SD) of blood chemistry parameters of 4 obese + LDL subjects classified by sex	104
4.48 Hemoglobin, blood glucose and uric status of the 4 obese + LDL subjects classified by sex	105
4.49 Serum lipid profile status of the 4 obese + LDL subjects classified by sex during the study	106
4.50 Percentage of anemia, hyperuricemia, hypertriglyceridemia, and hypercholesterolemia of 4 obese + LDL subjects	107
4.51 Sodium knowledge of 4 obese + LDL subjects	111
4.52 Sodium and health of 4 obese + LDL subjects	112
4.53 Sodium and food behavior of 4 obese + LDL subjects I	113
4.53 Sodium and food behavior of 4 obese + LDL subjects II (cont.)	114
4.53 Sodium and food behavior of 4 obese + LDL subjects III (cont.)	115
4.54 Means $\pm$ SEM and range of urinary sodium excretion of 4 obese + LDL subjects	116

LIST OF ABBREVIATIONS

ADH	Antidiuretic hormone
AHA	American Heart Association
BMI	Body mass index
BW	Body weight
Ca	Calcium
CHD	Coronary heart disease
CI	Confidence interval
cont.	Continued
cm	Centimeter
DM	Diabetes mellitus
dL	Decilitre
FBS	Fasting blood sugar
FFM	Fat Free mass
g	Gram
H	Hydrogen
Hb	Hemoglobin
HDL	High density lipoprotein cholesterol
HPO ₄	Hydrogen phosphate
H ₂ PO ₄	Dihydrogen phosphate
INMU	Institute of nutrition, mahidol University
Kcal	Kilocalorie
Kg	Kilogram
LDL	Low density lipoprotein cholesterol
M.	Matayom
m.	Meter
mg.	Milligram

LIST OF ABBREVIATIONS (cont.)

mmHg	Millilitre of mercury
mL	Miligram
mmol	Milimol
n	Number
Na	Sodium
NaCl	Sodium chloride
Na ₂ HPO ₄	Disodium hydrogen phosphate
Na-K-ATPase	Sodium-potassium adenosine triphosphatase
NCHS	The National Center of Health Statistics
PCCCR	Princess Chulabhorn's college Chiangrai
r	Pearson correlation coefficient
RDA	Recommended dietary allowance
RDI	Recommended daily intakes
SD	Standard deviation
SPSS	Statistical package for the social science
SN	Sodium knowledge
SH	Sodium and health
SFB	Sodium and food behavior
TBW	Total body water
TG	Triglyceride
WHO	World Health Organization
wk	Week
