ACKNOWLEDGEMENTS	iii
ABSTRACT (ENGLISH)	iv
ABSTRACT (THAI)	v
LIST OF TABLES	viii
CHAPTER I INTRODUCTION	
Background and Statement of the Problem	1
Research Question	2
Research Objectives	2
Expected Outcome	2
Scope of the Study	3
Definitions	3
CHAPTER II LITERATURE REVIEW	
Brain Tumor	5
Cognitive	21
Neuropsychiatric symptoms	29
Relation literature	36
CHAPTER III METHODOLOGY	
Population and sample	37
Data collection	39
Tools	39
Data analysis	41

CONTENTS (cont.)

	Page
CHAPTER IV RESULTS	
Step 1: Analysis of the sample's characteristic	43
Step 2: Analysis for the research questions	46
- Analysis of the prevalence of cognitive impairment in brain tumor patient	46
- Analysis of the prevalence of neuropsychiatric symptoms in brain tumor patient	47
- Analysis of the relation between each individual's variable that influence the neuropsychiatric symptoms and cognitive impairment of brain tumor patient	48
CHAPTER V DISCUSSION, CONCLUSION AND RECOMMENDATION	
Conclusion	56
Discussion	57
Research Limitations	58
Recommendations	59
REFERENCES	60
APPENDICES	63
BIOGRAPHY	97

LIST OF TABLES

Table	Page
2.1 Incidence o common cerebral tumors	7
2.2 The division of the Central Nervous System and Their Major Roles	9
2.3 Neuropsychiatric measures for cognitive disorders	24
2.4 Cognitive domain and neuropsychological test	25
2.5 Neuropsychological sign and symptom that can indicate brain diseases	34
4.1 Status of brain tumor patient sample	43
4.2 Comparing cognitive impairment of brain tumor patients in doing the MMSE-Thai 2002 and MoCA Thai version	46
4.3 Result of evaluation cognitive impairment, compared individually	46
4.4 Neuropsychiatric symptom problems of brain tumor patients	47
4.5 Characteristics of neuropsychiatric symptom of brain tumor patients	47
4.6 Result of comparing cognitive impairment of brain tumor patients, categorized by gender	48
4.7 Result of comparing neuropsychiatric symptom of brain tumor patients, categorized by gender	48
4.8 Result of comparing cognitive impairment of brain tumor patients, categorized by locations of brain tumors	49
4.9 Ratio of cognitive impairment occurrence, categorized by locations of brain tumors	49
4.10 Result of comparing neuropsychiatric symptom of brain tumor patients, categorized by locations of brain tumors	50
4.11 Ratio of neuropsychiatric symptom occurrence, categorized by locations of brain tumors	50
4.12 Result of comparing cognitive impairment of brain tumor patients, categorized by underlying diseases	51

LIST OF TABLES (cont.)

Table	Page
4.13 Result of comparing neuropsychiatric symptom of brain tumor patients, categorized by underlying diseases	51
4.14 Relation between age and cognitive impairment of brain tumor patients	52
4.15 Ratio of cognitive impairment occurrence, categorized by age	52
4.16 Relation between age and neuropsychiatric symptom of brain tumor patients	52
4.17 Ratio of neuropsychiatric symptom occurrence, categorized by age	53
4.18 The relation between education level (years) and cognitive impairment of brain tumor patients	53
4.19 The relation between education level (years) and neuropsychiatric symptom of brain tumor patients	54
