Abstract

The purposes of this study were to follow up on King Mongkut's Institute of Technology North Bangkok alumni awarded a master's degree in vocational and technical education management and to investigate their opinions on 4 areas of the program management, namely curriculum, instructors, library / resource center, and environment / facilities.

Five point rating scale questionnaires were used to collect data. The population of this study were 443 King Mongkut's alumni awarded a master's degree in vocational and technical education management in both plan A and B and from batches 1-10 (1988 -1997). Percentage, mean, t - test, standard deviation were used via SPSS/PC to analyze the data.

It was found that the alumni's opinions on the 4 areas were positive and were not different at the significance level of .05.
