ABSTRACT

The subject of the painting " Tidal Revelations " which is my Thesis , deals with the relationship and feelings . I have had with nature and waterways at my hometown . Nature has been a place which gives me life , love , and warmth . My relationship with nature has been personal and has greatly affected my inner emotions as well as my emotional contacts with the outside world .

I have used these emotions combined with my own imagination to express the semi - abstract painting .

All of these factors have contributed to various aspects in of my creativity from the past to the present .
