ABSTRACT

All beings on earth are born into the relationship in the condition of the rationalist factors which it is participated. In the principle of the rationale is followed by the system of nature. All changing of creatures will be born lived and decayed causing by time.

My thesis in this series is the creativity of painting discipline in which is reflecting my emotion, internal feeling fowards the nature. The fact of the uncertainty and substartial occurant circulation which is consisted of birth, old, suffering and death. These procession of life like a whirlpool always keep changing.
