

Thesis Title	Power of Movement
Name	Mr.Suphot Sangmanee
Concentration	Sculpture
Department	Sculpture
Academic Year	1997

## ABSTRACT

The purpose I had written this thesis is to show off the searching & creating of my sculpture works which show the power and rhythm of wave movement. The curving, bending and plain appear make fearsome and also beautiful feeling in itself. Combine many line together in order to create my sculpture in many style to show the power of beautiful movement which hide the excitement and fearsome inside.

My thesis separate to 5 chapter. The 1<sup>st</sup> chapter is leading article, write about main concept, aim and learning method. 2<sup>nd</sup> chapter describe about inspiration & influence source. 3<sup>rd</sup> chapter talking about creating process of this thesis. 4<sup>th</sup> chapter is specify the basic composition analysis process. 5<sup>th</sup> chapter summary new knowledge problem & expect to create my next sculpture.
