

Thesis Title	The Phenomenon of Relation between Natural and Material Worlds
Name	Mr. Kitti Maleephan
Concentration	Painting
Department	Painting
Academic Year	1997

ABSTRACT

Social transformation aims for developing economy increases the growth of industrial product in order to benefit capitalism. Consequently, natural resources have been consumed extravagantly. Thus the ecology was devastated constantly. This effected existence of life and human beings and gradually created the gap between naturalism and materialism.

My works depict the contrast between naturalism and materialism. They are manifested through the form of process oriented installation piece which focus on environmental issue.
