Name TEERAWAT NGARMCHUACHIT
Concentration Graphic Arts
Department Graphic Arts
Academic Year 1993

ABSTRACT

Memory is a part of human existence which has a strong impact on how we feel. It elevates the mind and sometimes it acts as a reminder of our past experiences... pain and happiness.

The inspiration of my work stems from the childhood memories of the close relationship within my family. These traces of memories are imaginatively expressed through the usage of lines, colours, and tones to create images in an abstract manner.
