ABSTRACT

The objectives of this study are to find the backgrounds, obstacles in Crime prevention and suppression, the factors affecting them, and suitable approach to solve the obstacles of the commissioner police in the second provincial police region.

The study was lead in survey through questionnaires. the data were collected from 400 provincial commissioner police by purposive and quota sampling .

the results of the stydy are summarized as follows :

1. The samples with different socio-economic stati have different internal official obstacles.

2. The samples with different socio-economic stati have different external official obstacles.

3. The samples with different socio-economic stati have different kind of obstacles from inflent persons.

RECOMMENDATIONS :

1. There is a need of urgent improvement of quantity and quality of lower and medial level police officers.

2. The government is needed to improve the provision of equipment, vehicles, budget and welfare of the police officers to upgrade the working morale.

3. There is a need of more local public and community relation concerning crime prevention and suppression.

4. The high level commissioners are needed to have clear policy and practice to the influent persons to encourage the practice of the police officers.

5. Mass media and the entire society itself is needed not to accept the persons to have influent behavior.
