ACKNOWLEDGEMENTS

I would like to express my sincere appreciation to my supervisor, Assoc. Prof. Dr. Wirat Niwatananun for his kind supervision encouragement and patience throughout this research work.

I would like to express my sincere thank to my co-supervisors Assoc. Prof. Dr. Boonsom Liawruangrath, Assoc. Prof. Dr. Saisunee Liawruangrath, Asst. Prof. Dr. Apiwat Baramee, Prof. Stephen G. Pyne for their kind supervision encouragement and inspiring discussion throughout this research work.

I would like to sincerely thank Dr. Winai Oungpipat and Dr. Kongkiat Trisuwan, the thesis committee, for valuable suggestions and corrections.

I would like to express my thank to Mr. Banyong Khantawa, Microbiology Section, Central Laboratory, Maharaj Nakorn Chiang Mai Hospital, Chiang Mai, Thailand for kindly providing suggestions in the support microbiology laboratory.

I wish to thank all the technical support staff in the Faculty of Pharmacy, Chiang Mai University for their kind helps.

I gratefully acknowledge to National Research Council Thailand, Rajamangala University of Technology Krungthep, the Graduate School of Chiang Mai University and the Faculty of Pharmacy, Chiang Mai University for their partial financial supports.

I am also special thank to all of my friends and the Ph. D. and Master degree students of the Faculty of Pharmacy, Chiang Mai University for their helps and encouragements.

Finally, I wish to express my deepest gratitude to my parents, my sister, my brother, and all of my relatives for their helps, love, care and encouragement throughout this research work.
