

might not be known to the carrier and become the forwarders' private information. The carrier needs to design contracts, which create enough incentive for the forwarders to share information. We hope to pursue these and other related questions in the future.

Acknowledgments

The authors would like to thank the referees and editor-in-chief for their valuable comments, which help to improve the quality of our manuscript. This research was supported in part by the Thailand Research Fund and Office of the Higher Education Commission, Thailand (Grant MRG-5280069). The views expressed in this paper are those of the authors and do not necessarily reflect the views of the Thailand Research Fund and Office of the Higher Education Commission, Thailand.
