## ACKNOWLEDGMENTS

First of all, I am grateful to thank Toxicology program, Multidisciplinary Unit, Faculty of Science, Mahidol University for providing the opportunity, all instrument, and facilities cooperation on my research. I thank my major advisor, Assoc. Prof. Nathawut Sibmooh, for give the opportunity to work in your group and give counsel on the laboratory design. I thank my co-advisor, Asst. Prof. Pornpun Vivithanaporn, Assoc. Prof. Supeenun Unchern for their encouragement, suggestion, constructive and intensive supervised through the laboratory works and preparation of this thesis. I would like to thank Dr. Maskiet Boonyareth for invaluable guidance as a chair and an external committee in my thesis examination. My special thanks are given to my laboratory member in Room B511 and B513A for their friendly, helpful, and valuable experience.

I am grateful for the partially financial supported from National Research Council of Thailand (NRCT).

Finally, I would like to give my deepest gratitude to my family members, Mr. Thanawit Tharworrachat and Mrs. Khumhiag Tharworrachat for their love, carefulness, understanding and supporting throughout my life.

Natthapong Tharworrachat
