## ACKNOWLEDGEMENTS

I would like to express my gratitude and deep appreciation to Asst. Prof. Dr. Sukhontha Siri, my major advisor for guiding to right direction of doing this thesis, invaluable advice, supervision, and warmest support throughout the study. I would like to express my sincere gratitude to my co-advisors, Assoc. Prof. Dusit Sujirarat and Dr. Sarutabhandu Chakrbhandu Na Ayutaya for kindness and helpful guidance and valuable advice and I would like to thank counselors Pol. Capt. Jongkol Podang and Assoc. Prof. Dr. Pimsurang Taechabunsermsak, Miss. Mayura Noppornpanth for assistance in validation and revision of the research instruments. In particular, I would like to thank Asst. Prof. Dr. Pimsupa Chandanasotthi, my external examiner for her suggestion and helpful guidance.

I would like to express my gratitude for being awarded the 2013 scholarship from the National Research Council of Thailand. I am grateful for your generous support.

I would like to thank the staff of Lampang Public Health Provincial Office for facilitating in field preparation. I am thankful for the elders and informant for giving the information. Special thanks to public health volunteers for their support on data collection.

I also thank all lecturers and staffs at the department of Epidemiology, Faculty of Public Health, Mahidol University for knowledge and advice throughout the study.

Finally, I would like express my deepest appreciation of my family for their supportive, love, understanding and encouragement throughout this study.

Kwanruen Kawitu
