

LIST OF FIGURES

Figures	Page
1.1 The conceptual framework of this research	7
2.1 MSW composition in selected Asian countries	21
2.2 Annual MSW generation in Thailand	22
2.3 MSW disposal practiced in selected countries	24
2.4 A flow diagram for integrated approach for wastes management	28
2.5 Hierarchy of integrated wastes management and influencing factors	29
2.6 A carbon-balance model of the globe	35
2.7 A carbon-balance model of Thailand	38
2.8 The Carbon Balance Model	38
2.9 Pathways for MSW treatment for recovery and recycling processes	44
2.10 Flow chart for landfill gas-to-energy project	46
3.1 Organic and Fossil fuel flow in Landfilling	57
3.2 Organic carbon and fossil fuel carbon flow with mechanical-biological treatment (MBT).	58
3.3 Organic carbon and fossil fuel carbon flow with incineration	58
4.1 Flow diagram of solid waste management in Nonthaburi Municipality	62
4.2 Flow diagram of solid waste management in Khon Kaen municipality	69
4.3 Flow diagram of solid waste management in Phitsanulok municipality	76
4.4 Flow diagram of solid waste management in Phuket municipality	84
