ABSTRACT

This thesis is a comparative study of the phonology of Lao Song in Petchburi and Nakhorn Pathom Provinces.

The thesis is divided into 4 Chapters. Chapter 1 is general information about the Lao Song. Chapter 2 is the phonology of Lao Song in Petchburi Province from the Phonological Word to the Phoneme. Chapter 3 is the comparison of the phonemes of the Lao Song in Petchburi and Nakhorn Pathom Provinces which shows that there are some differences in both phonetic and phonemic levels of the phonemes. Chapter 4 is the conclusion and provides some suggestions for further studies.
