ABSTRACT

The purposes of this research were to study learning and teaching tasks in the secondary schools under the Department of General Education in Chaiyaphum Province in the following items : 1) the condition of the learning and teaching management 2) the problem of learning and teaching management 3) the guideline for developing learning and teaching tasks.

The sample consisted of 328 teachers. A set of questionnaires was used as a tool for collecting data. The earned data were analyzed by using percentages, means and standard deviations.

The results :

1. The condition of learning and teaching management in the secondary schools under the Department of General Education in Chaiyaphum Province was both totally and seperately in the "high" level.

It was noticed that: the learning and teaching activity arrangement, the management of teachers' teaching and learning and teaching aids task practiced in the last three ranks.

2. The problem of learning and teaching management was totally in "low" level. But there was a notice that the problems of : the materials, office equipment and buildings , the people who concerned about learning and teaching tasks and the budgetting were in "high" level and in the first three ranks.

3. The first three upper ranks of the guideline for developing learning and teaching tasks were : the learning and teaching activity arrangement, the learning and teaching aids tasks and the management of teachers' teaching.
