

ACKNOWLEDGMENTS

Thanks and appreciation are due to the thesis committee, especially to Associate Professor Dr. Wiwat Suasa-ard, Dr. Sopon Uraichuen and Dr. Rewat Lersrutaiyotin for their valuable advice, guidance and encouragement throughout this study.

Sincere appreciation and gratitude are expressed to the National Biological Control Research Center (NBCRC), Central Regional Center (CRC), Kasetsart University, Kamphaeng Saen Campus, Nakhon Pathom, Thailand for providing facilities and other assistances that make possible the successful completion of this investigation.

Sincere thank are also expressed to my family and my friends for their continuous support and encouragement.

Finally, appreciation is also extended to all of my colleagues who extended assistance in terms of valuable suggestions, assistance and criticism.
