

ACKNOWLEDGEMENTS

I would like to express my sincere appreciation to my thesis advisor Associate Professor Sunee Nitisinprasert for her guidance and encouragement, especially her scientific mind and her devotion to Science.

I would like to thank Assistant Professor Sutthipun Keawsompong, Assistant Professor Arunee Engkagul and Dr. Patcharaporn Siwayaprahm, for their invaluable comments and suggestions. I would also like to thank Professor Dietmar Haltrich for his kindness. Working with him is one of the new experiences for my life.

The Commission on Higher Education, Ministry of education, Royal Thai Government is gratefully acknowledged for granting me the PhD scholarship in Biotechnology. It is also my great pleasure to acknowledge The Center for Agricultural Biotechnology (CAB) for AKTA explorer equipment.

Thanks are due to all members of The Department of Biotechnology, Faculty of Agro-industry, Kasetsart University, and University of Natural Resources and Applied Life Sciences, Vienna (BOKU) for their friendship and support.

My heartfelt special appreciation is due to my parents for their love and everything in my life. Special thanks are also expressed to Pakornyoot Chuntorn who never leaves me alone with all problems. Special thanks are extend to my sister, Jirawan Apiraksakorn for her help and stand by me all the times.

Lastly, I would like to express the best novel for my life. “We live and work and dream each has his little scheme. Sometimes we laugh, sometimes we cry and thus the days go by. There are no stars which we could trust. There is no guiding lights and all we know is that we must. Be good be light be trust.”
