CURRICULUM VITAE	111

## LIST OF TABLES

Table	Page
1 The geographic origins collection of the stable fly	32
2 Polymerase chain reaction primers used for mtDNA amplication	37
3 Distribution of <i>Stomoxys</i> spp. observed at Nakhonpathom, Kanchanaburi and Saraburi provinces during July 2004 to June 2005	42
4 Stomoxyine flies collected by Vavoua traps at beef and dairy cattle farms, Kasetsart University, Kamphaengsaen campus, Nakhonpathom province during July 2004 to June 2005	43
5 Some morphological characteristics of <i>Stomoxys</i> spp. found in central Thailand at Nakhonpathom, Kanchanaburi and Saraburi provinces	48
6 Average size of male genitalia of <i>Stomoxys</i> spp. collected in central Thailand at Nakhonpathom, Kanchanaburi and Saraburi provinces during July 2004 to June 2005	62
7 Monthly catches of <i>Stomoxys</i> spp. by Vavoua trap in a beef and a dairy cattle farm, Kasetsart University, Kamphaengsaen campus, Nakhonpathom province, Thailand from July 2004 to June 2005	70
8 Number of males and females flies observed during the survey period (July 2004 to June 2005) at Kasetsart University, Kamphaengsaen campus, Nakhonpathom province, Thailand	71
9 Sequences of Cytochrome B and Cytochrome oxidase I genes for some of the studied populations	79

## LIST OF FIGURES

Figure	Page
1 Three localities in central of Thailand where as <i>Stomoxys</i> flies were collected; Nakhonpathom, Saraburi and Kanchanaburi provinces	23
2 Assembly of the Vavoua trap	25
3 The Vavoua trap used for collecting <i>Stomoxys</i> flies during July 2004 to June 2005	27
4 Heads of <i>Stomoxys calcitrans</i> (Linnaeus), <i>Haematobosca stimulans</i> (Meigan), <i>Haematobia irritans</i> (Linnaeus)	45
5 Head of <i>Stomoxys calcitrans</i> (L.): Left, lateral view showing mouthpart; Right, frontal view (diagram) showing measurement of the frontal index	46
6 Wing of <i>Stomoxys calcitrans</i> (L.)	47
7 Frontal views of male and female heads of <i>Stomoxys calcitrans</i> (L.) and <i>Stomoxys indica</i> Picard	49
8 <i>Stomoxys calcitrans</i> (L.); Male and female head, anterior view, Wing, Dorsal abdominal pattern	51
9 <i>Stomoxys calcitrans</i> (L.); Female abdomen in ventral view and Terminal part of ovipositor dorsally	52
10 <i>Stomoxys sitiens</i> Rondani; Male and female head, anterior view, Wing, Dorsal abdominal pattern	54
11 <i>Stomoxys indica</i> Picard; Male and female head, anterior view, Wing, Dorsal abdominal pattern	56
12 Hind legs of <i>Stomoxys bengalensis</i> Picard and <i>Stomoxys sitiens</i> Rondani	58
13 The male genitalia of <i>Stomoxys calcitrans</i> (L.)	60
14 The male genitalia of <i>S. calcitrans</i> (L.), <i>S. sitiens</i> Rondani and <i>S. indica</i> Picard collected in central Thailand at Kanchanaburi, Nakhonpathom and Saraburi provinces	61

## LIST OF FIGURES (cont'd)

Figure		Page
15	Monthly mean ambient temperature, relative humidity, rainfall and radiated sunshine	67
16	Daily activity of <i>S. calcitrans</i> (L.), <i>S. sitiens</i> Rondani and <i>S. indica</i> Picard in a beef farm (plain line) and a dairy farm (dotted line), observed at Kasetsart University, Kamphaengsaen campus, Nakhonpathom province, Thailand. The number of flies is the total number capture during the servey period	68
17	PCR products of <i>S. calcitrans</i> (L.) obtained by the primer designed for Cytochrome oxidase I (Cox I)	76
18	PCR products of <i>S. calcitrans</i> (L.) obtained by the primer designed for Cytochrome B (Cyt B)	77
19	Maximum likelyhood tree from concatenated sequences of mitochondrial genes Cytochrome oxidase I and Cytochrome B	80

### Appendix Figure

1	Beef cattle shelter at Animal Research and Development Institute, Kasetsart University, Kamphaengsaen campus, Ban yang district, Nakhonpathom province	102
2	Dairy cattle farm at Animal Research and Development Institute, Kasetsart University, Kamphaengsaen Campus, Ban yang district, Nakhonpathom province	103
3	<i>Stomoxys</i> spp. feeding blood on the cattle's skin	104
4	Diagram of Vavoua trap and the Vavoua trap	105
5	Wing of a musciform fly	106
6	Frontal and lateral view of head of a musciform fly	107

**LIST OF FIGURES (cont'd)**

<b>Appendix Figure</b>		<b>Page</b>
7	Left; The digital camera connecting with microscope, Right; The program Studio Quick Start Version 8 was used for photographed the male genitalia of <i>Stomoxys</i> spp.	108
8	Male terminally of <i>Stomoxys calcitrans</i> (L.)	109
9	Male genitalia of <i>Stomoxys calcitrans</i> (L.)	110
