

ACKNOWLEDGEMENTS

First of all, I would like to express my sincere gratitude to my thesis advisor, Associate Professor Dr. Niphone Thaveechai who provided a valuable opportunity for enrollment at the Royal Golden Jubilee Ph.D. Research Assistant Fellowship, his encouragement, valuable advice and criticism throughout my study.

Special gratitude and deeply thanks to my thesis committee members, Associated Professor Dr. Ampaiwan Paradornuwat, Professor Dr. Norman W. Schaad, Assistant Professor Dr. Julapark Chunwongse and for their helpful advise and suggestions.

I am grateful to the Mr Chid Grouymongkol for his supporting and providing the research site, Ms. Nuttima Boonwatana, Plant Pathology Research Group, Plant Protection Research and Development Office, Department of Agriculture for her kind supporting of bacterial cultures and Dr. Srimek Chowpongpan, Department of Plant Pathology, Kasetsart University, for his kind suggestions and support for cloning and sequencing of Xsc. My thanks are also expressed to all members in Department of Plant Pathology for their helping, kindness and friendship.

I would like to thank the Royal Golden Jubilee Ph.D. Program, Thailand Research Fund and Kasetsart University Research and Development Institute for the partially financial support of this study.

Finally, special appreciation is expressed to my parents, Mrs. Orathai and Mr. Suchart Lertsuchtavanich, my brothers, my sisters and all members in my family for their love, support and understanding throughout my study.

Udomsak Lertsuchatavanich
