

ACKNOWLEDGEMENTS

This thesis is accomplished by many helps from the following people. Without them, my research may not be done properly.

Firstly, I am profoundly indebted to my thesis advisor, Assistant Professor Juta Pichitlamken, Ph.D. for her efforts, guidance, encouragements, and time.

For International Graduate Program in Industrial Engineering, thank you very much for fully sponsored form 2005 to 2007.

For committee members, Assistant Professor Waessara Weerawat, Ph.D., and Professor Wisut Supithak , Ph.D., there are many valuable suggestions and comments I obtained from them to use for my work.

For International Graduate Program in Industrial Engineering staffs, thank you very much for your kinds.

Finally, all my attempts and appreciations devotes to my father and mother who support me all the time.
