

## **ACKNOWLEDGEMENTS**

I would sincerely like to acknowledge the efforts of many people who contributed to the research, and to this thesis in particular. Without them, the work would never have been undertaken.

Technically, I am profoundly indebted to my thesis advisors Assoc. Prof. Suree Bhumibhamon, Dr. Suchitra Changtragoon and Assoc. Prof. Surin Peyachoknagul for their direction, suggestion, and encouragement, and also to Mr. Kietkong, the leader of the international provenance trial in Kanchanaburi province who allow me to collect leaf samples of his station.

My deepest thanks to Dr. Madhav Pandey for his technical guide line, Mr. Tawee Kanhawan, Mr. Sa-ngaun Wongsu, and Miss Tantawan Pasawaka for their help and friendship during working in DNA and Isoenzyme laboratory of National Park, Wildlife and Plant Conservation Department.

Finally, my appreciation devotes to my parents and my sisters who always give me heartfelt supports.
