

## **ACKNOWLEDGMENTS**

I would sincerely like to acknowledge the efforts of many people who contributed to this research, and to this thesis in particular. Without them, the work would never have been undertaken. Technically, I am profoundly indebted to my thesis advisor Assistant Professor Dr. Monton Jamroenprucksas for the valuable direction, suggestion and encouragement, and also to my committee members, Assistant Professor Dr. Ladawan Puangchit, Dr. Chongrak Wachrinrat and Dr. Uthaiwan Sangwanit for their suggestions during my research.

I would like to express my sincere gratitude to Mr. Henry Heuveling van Beek, the director of the Rainforest Project Foundation Vietnam (TRP), who supported me with the scholarship, suggestion and encouragement to study and complete this thesis.

I would particularly like to acknowledge the Trat Agroforestry Research Station (TAFRS) under the Kasetsart University Research and Development Institute for providing all kind of facilities during my fieldwork. My thankfulness also goes to Mr. Pichai Jamolchot and all the staffs of TAFRS for helping me to collect data for my thesis.

Finally, I am very grateful to my parents and my older sister, Mrs. Charao Bunmat who have encouraged and supported me in every way to complete the master degree.
