

ACKNOWLEDGEMENTS

This independent study could not have been achieved without the assistance and support of several people. First of all, I would like to express my high gratitude to Ms. Tipavan Nookhwun, Director of Library and Archives of the Bank of Thailand (BOT) and Ms. Nantana Grodtem, Team Executive of the library for their permission in conducting this study and their helpful suggestions. I am also extremely grateful to my adviser, Ajarn Wanida Phankaeo, for her invaluable assistance and guidance in conducting this research paper.

Moreover, my gratitude is extended to all instructors of the Language Institute, Thammasat University, who sacrifice their time, effort, and knowledge for me. In addition, I would like to thank the administrative staff of the Language Institute for their useful assistance.

Without great cooperation from my colleagues and the BOT's employees who use the services of the BOT's library at the Head Office, this independent study could not have been completed. I would like to thank them for their kind assistance in filling in the questionnaires.

Also, sincere appreciation is extended to my family who gave me strength and encouragement to complete this study.
