LIST OF TABLES	v
CHAPTER I INTRODUCTION	1
Significance of Study	1
Research Objectives and Questions	6
Anticipated Outcomes	7
Delimitation of Study	8
Operational Definitions of Terms	9
Disadvantaged Students	9
Social Constructivist Approach	9
Genetic Instructional Units based on Social Constructivism	10
Student's Genetic Conception	10
Communication Skills	10
Summary	11
CHAPTER II REVIEW OF THE LITERATURE	13
Introduction	13
The Context of Education in Thailand	14
Disadvantaged Students	17
Education for Disadvantaged Students	19
Schools for Disadvantaged Students	22
Status and Problems of Schools for Disadvantaged Students	24
Teaching and Learning for Disadvantaged Students	25
Social Constructivist Teaching and Learning	30
Genetics Education Overview	34
Genetics in Thai Curriculum	35

TABLE OF CONTENTS (CONTINUED)

	Page
Genetics in Thai Textbooks	38
Genetics Conceptions	39
Genetics Conceptions in Junior High School Level	39
Genetics Conceptions in High School Level	41
Genetics Alternative Conceptions	56
Communication and Classroom Interactions	78
Theoretical Framework	82
Summary	83
CHAPTER III METHODOLOGY	85
Introduction	85
Interpretive Paradigm	86
Trustworthiness	87
Case Study	89
Research Methodology	91
Subjects	92
Instruments	93
Instrumentation of Teachers' Questionnaire Form and Students' Questionnaire Form	93
Instrumentation of Basic Genetic Concepts Survey	95
Instrumentation of Advanced Genetic Concepts Survey	96
Instrumentation of Observation form	98
Instrumentation of Genetic Instructional Units (GIU)	98
Data Collection	98
Data Analysis	102
Summary	104
CHAPTER IV THE EXISTING SITUATIONS OF GENETICS IN WELFARE SCHOOLS OF THAILAND	106

TABLE OF CONTENTS (CONTINUED)

	Page
Introduction	106
Existing Situations of Teaching and Learning Genetics in Welfare Schools of Thailand	106
Background Information of Biology Teachers and Science Students in Welfare Schools	107
Teachers' and Students' Perception of Teaching and Learning Genetics in Welfare Schools	108
The Congruence between Teachers' and Students' Perceptions about Genetic Teaching and Learning Genetics	121
Basic Genetic Concepts of Disadvantaged High School Students in Welfare Schools	129
The Backgrounds of Respondent Science Students	130
Basic Genetic Conceptions of Disadvantaged High School Students	130
Summary	148
CHAPTER V DEVELOPMENT OF GENETIC INSTRUCTIONAL UNITS (GIU)	150
Introduction	150
Development of Genetic Instructional Units	150
Summary	161
CHAPTER VI RESULTS OF GIU IMPLEMENTATIONS AND DISCUSSION	163
Introduction	163
Genetic Instructional Units (GIU) Overview	163
Case I of the Implementation of GIU	165
The Context of Case I	165
The Implementation of Genetic Instructional Unit (GIU) in Each Unit of Case I	167

TABLE OF CONTENTS (CONTINUED)

	Page
Examples of the Teaching and Learning During the Implementation of the GIU in Case I	179
Case II of the Implementation of GIU	205
The Context of Case II	205
The Implementation of Genetic Instructional Unit (GIU) in Each Unit of Case II	206
Examples of the Teaching and Learning During the Implementation of the GIU in Case II	210
Cross Cases	222
The Context of Schools, Teachers, and Students	223
Teaching Results	223
Learning Results	224
Problems of the Implementations	225
Summary	225
CHAPTER VII CONCLUSIONS AND RECOMMENDATIONS	228
Overview of the Study	228
Research Conclusions	230
Recommendations	234
REFERENCES	238
APPENDICES	256
Appendix A Basic Genetic Concepts Survey	257
Appendix B Advanced Genetic Concepts Survey	269
Appendix C Overview of Activities in Each GIU	283
Appendix D Teachers' Questionnaire Form	301

TABLE OF CONTENTS (CONTINUED)

	Page
Appendix E Students' Questionnaire Form	310
Appendix F Nucleotide, Polynucleotide, and DNA structure	316
Appendix G Students' Communication Skills	320

LIST OF TABLES

Table	Page
2.1 Responsibility of Special Education and Welfare Education	23
4.1 Number of Teacher Responses to the Level of Difficulty of Each Genetic Concept in Teaching	109
4.2 Number of Teacher Responses to the Genetic Teaching Strategies	110
4.3 Topics in Teaching and Learning in Professional Development Program which Teachers Needed to Attend	113
4.4 Number and Percentage of Student Responses to the Level of Difficulty of Each Genetic Concept for Learning	115
4.5 Number and Percentage of Student Responses to the Frequencies of Existing Teaching and Learning Genetics	116
4.6 Number and Percentage of Teacher Responses to the Level of Difficulty of Each Genetic Concept for Teaching	121
4.7 Number and Percentage of Student Responses to the Level of Difficulty of Each Genetic Concept for Learning	122
4.8 Overview of Comparison between Teachers' and Students' Perceptions about Difficult Genetic concepts for Understanding in Teaching and Learning	123

LIST OF TABLES (CONTINUED)

Table	Page
4.9 Number and Percentage of Students Categorized by their Genetic Concepts	131
5.1 Table of the Genetic Instructional Units	156
6.1 Overview of the Genetic Instructional Units	164
6.2 Background Information of Students in School A	166
6.3 Students' Prior Knowledge in Seven Genetic Concepts	189
6.4 Number of Students Categorized by Advanced Genetic Concepts	192
6.5 Prior Knowledge of Students in School B in 7 Genetic Concepts	216
6.6 Number of Students in School B Categorized by Advanced Concepts	219
