

## ACKNOWLEDGMENTS

I wish to express my deep appreciation to my major thesis advisor, Associate Professor Dr. Leka Manoch for her kindness, endless assistance, encouragement, support, understanding and care during this study. I would like thank my co-advisors, Associate Professor Niphon Visarathanonth, Associate Professor Dr. Chiradej Chamswarnng and Dr. Srimek Chawpongpang for their valuable suggestions and comments throughout the course of this research.

I wish to express my sincere thanks to my international co-advisor Professor Dr. Anake Kijjoa for his endless assistance, encouragement, support and care during my study at Instituto de Ciencias Biomedicas de Abel Salazar, Universidade do Porto, Portugal. I am indebted to Professor Artur M.S. Silva, Department of Chemistry, University of Aveiro, Portugal for providing NMR, COSY, HETCOR, HMBC and NOESY spectra. My special thanks go to Professor Dr. Werner Herz, Department of Chemistry, The Florida State University, USA, for his valuable comments and suggestions on the structure elucidation of the compounds. Sincere thanks are also for Dr. Graham Eaton, Department of Chemistry, University of Leicester, UK, for measurement of High Resolution Mass Spectra. I greatly appreciated Dr. Luis Gales for his assistance on the X-ray crystallography.

I also wish to thank my dear friends, my colleagues and all the technicians in the Department of Plant Pathology, Faculty of Agriculture, Kasetsart University and at Instituto de Ciencias Biomedicas de Abel Salazar, Universidade do Porto, Portugal for their help and for a pleasant environment they have provided.

I also wish to acknowledge the financial support from the Thailand Research Fund through the Royal Golden Jubilee Ph.D. Program, which made this study possible.

Finally, I would like to express my deep gratitude to my parents, Mr. Niyom Dethoup and Mrs. Sopa Dethoup for their love, patience, encouragement and continuing support throughout the period of this work

Tida Dethoup
