

ACKNOWLEDGEMENTS

I would like to express my profound gratitude to my advisor, Associate Professor Suree Bhumibhamon for his precious and kindness guidance through the long course of my study and research. His discussion, criticism and correction of the manuscript had enhanced this thesis in the complete form. Special thanks to Assistance Professor Damrong Pipatwattanakul and Associate Professor Lily Kaveeta, major and minor field committees, for their additional suggestions and encouragements in due course. My sincere thanks are also given to Associate Professor Wicha Niyom, representative of the Graduate School, for his valuable comments. My special thanks is given to Dr. Chongrak Wachrinrat for statistic guidance.

Acknowledgments are given to Thai Plywood Company, Teak Improvement Center (RFD) and Seed Laboratory (KUFF). The study would not be complete without help and hospitality provide during the data collection from Mr. Winai Thavorn, Mr. Prachuab Klinkachornvong, Mr. Sompong Khetput, Mr. Mongkol Srianan, Mr. Suthat Boonsaoy, Mr. Kaittisuk Phokate and other TPC staffs. Sincerely gratefulness are dedicated to Tree Link Project and Graduate School for contribution.

I am deeply indebted to Ms. Suwimon Uthairatsamee, Mr. Chakrit Na Takuathung, Ms. Wathinee Krisanapant, Mr. Apichart Tonnamning, Mr. Jakrapong Buakla and Ms. Kanjana Popromsee for their strong help in data collections in the fields.

Heartfelt thanks are given to my closest friends, including Ms. Patcharin Pantharug, Ms. Piyanan Hiruncharothorn, Ms. Paisuda Tridechee, Ms. Bang-on Pulnate, Mr. Thaworn Boonrasri and Mr. Somporn Mealim for their never-ending supports and understanding during my long life journey.

Finally, I would like to express my wholehearted appreciation to my beloved family especially my wonderful mother for teaching me to understand the worth of life, letting me to touch her endless love and providing me with the infinite supports in all possible ways.
