

THESIS

GREENHOUSE GAS EMISSION FROM CONSTRUCTED  
WETLAND FOR TREATING LANDFILL LEACHATE IN THE  
TROPICS

PRANEETH NISHADI WICRAMARACHCHI

A Thesis Submitted in Partial Fulfillment of  
the Requirements for the Degree of  
Master of Engineering (Environmental Engineering)  
Graduate School, Kasetsart University

2008

## **ACKNOWLEDGEMENTS**

The author expresses his heartfelt thanks and indebtedness to his advisor Associate Prof. Chart Chiemchaisri for his expert guidance, valuable suggestions, and constant encouragement. I value the indefatigable and skillful way in which my manuscript was shaped by him. He was always there when I needed help ready to share his professional expertise during weekends and off-hours too.

The author is gratified by the presence of Associate Prof. Wilai Chiemchaisri , Assistant Prof. Narumol Vongthanasunthorn and Associate Prof. Chalemraj Wantawin as the distinguished thesis committee members, for their valuable critiques and suggestions. My sincere appreciation goes to Associate Prof. Patcharaporn Suwanvitaya for her endless and kind cooperation for me whenever I was troubled. Thanks goes to the all staff in Environmental Engineering laboratory for their valuable and commendable helping hand to us especially, my admiration goes to Miss. Kanchana Thnyviang and Mr. Prachaya Chansuk for their helps for my laboratory works. Deep appreciation is extended to my colleagues and friends especially Miss. Boonya Charnok and Miss. Varinthron Boonyaroj in Environmental Engineering Program for their help in many ways.

I am thankful to Department of Environmental Engineering for awarding me a scholarship and Swedish International Development Agency (SIDA), for allowing me to work as research assistant during my study period to support my study. This admiration is extended to ‘Sustainable Landfill Management in Asia’ funded by Swedish International Development Co-operation Agency (Sida), for partially funding this research. The author would like to express his deep gratefulness to his beloved wife for her support, understanding and constant inspirations that let this study to accomplish successfully. Finally, I would like to dedicate this piece of work to my parents they always wanted to see me grow academically.
