

## TABLE OF CONTENTS

	<b>Page</b>
TABLE OF CONTENTS.....	i
LIST OF TABLES.....	ii
LIST OF FIGURES.....	iii
LIST OF ABBREVIATIONS.....	v
INTRODUCTION.....	1
OBJECTIVES.....	3
LITERATURE REVIEW.....	4
Taxonomy and biology of <i>Rana tigerina</i> .....	4
Gross anatomy and morphology of the oviduct.....	4
Histological study of the oviducts.....	6
The property of jelly.....	8
Seasonal variation in the oviduct.....	9
The hormonal control of the amphibian oviduct.....	9
Lectins and its histochemical applications.....	12
MATERIALS AND METHODS.....	14
Experimental animals and collection of oviducts.....	14
Lectins.....	14
Lectin histochemistry with oviductal sections.....	14
Sodium dodesyl sulfate polyacrylamide gel electrophoresis (SDS-PAGE) and silver staining.....	16
Western blotting and lectin staining.....	17
RESULTS.....	19
Immunohistochemistry of various lectins in oviductal tissues.....	19
Detection of specific glycoproteins in oviductal secretions.....	56
DISCUSSION.....	66
CONCLUSION.....	71
LITERATURE CITED.....	72
APPENDIX.....	79

## LIST OF TABLES

<b>Table</b>		<b>Page</b>
1	Lectin histochemistry of the various parts of oviduct in <i>Rana tigerina</i> (breeding period).....	53
2	Lectin histochemistry of the various parts of oviduct in <i>Rana tigerina</i> (non-breeding period).....	54
3	Lectin histochemistry of the various parts of oviduct in <i>Rana tigerina</i> (hormonal administration period).....	55
<b>Appendix Table</b>		
A1	Lectin sources and their sugar specificity.....	82
A2	Some lectins used as histochemical reagents.....	83

## LIST OF FIGURES

Figure	Page
1    Lectin histochemistry of the PR region during the breeding period.....	24
2    Lectin histochemistry of the PR region during the non-breeding period.....	26
3    Lectin histochemistry of the PR region during the hormonal administration period.....	28
4    Lectin histochemistry of the PC1 region during the breeding period.....	30
5    Lectin histochemistry of the PC1 region during the non-breeding period.....	32
6    Lectin histochemistry of the PC1 region during the hormonal administration period.....	34
7    Lectin histochemistry of the PC2 region during the breeding period.....	36
8    Lectin histochemistry of the PC2 region during the non-breeding period.....	38
9    Lectin histochemistry of the PC2 region during the hormonal administration period.....	40
10   Lectin histochemistry of the PC3 region during the breeding period.....	42
11   Lectin histochemistry of the PC3 region during the non-breeding period.....	44
12   Lectin histochemistry of the PC3 region during the hormonal administration period.....	46
13   Lectin histochemistry of the PC4 region during the breeding period.....	48
14   Lectin histochemistry of the PC4 region during the non-breeding period.....	50
15   Lectin histochemistry of the PC4 region during the hormonal administration period.....	52
16   The oviductal secretory proteins resolved by SDS-PAGE and subjected to silver staining.....	59
17   Lectin blotting with BSL-I (panels A, B and C) and ConA (panels D, E and F) of the secretory proteins taken from all parts of oviducts in various conditions.....	61
18   Lectin blotting with LCA (panels A, B and C) and RCA-I (panels D, E and F) of the secretory proteins taken from all parts of oviducts in various conditions.....	63

## LIST OF FIGURES (continued)

<b>Figure</b>	<b>Page</b>
19    Lectin blotting with UEA-I (panels A, B and C) and WGA (panels D, E and F) of the secretory proteins taken from all parts of oviducts in various conditions.....	65
 <b>Appendix Figure</b>	
A1    Mature female rice field frog.....	80
A2    The internal organs of mature female frog.....	81

## LIST OF ABBREVIATIONS

$\alpha$ -D-Man	=	$\alpha$ -D-mannose
$\alpha$ -D-Glu	=	$\alpha$ -D-Glucose
$\alpha$ -Gal	=	$\alpha$ -galactose
$\alpha$ -GalNAc	=	$\alpha$ -N-acetylgalactosamine
$\beta$ -Gal	=	$\beta$ -galactose
CC	=	Ciliated cell
<i>et al.</i>	=	Et Alii (Latin), and others
h	=	hour
LF	=	Lower fold
LMG	=	Lower mucosal gland
MG	=	Mucosal gland
GlcNAc	=	N-acetylglucosamine
NCC	=	Non-ciliated cell
PC	=	Pars convoluta
PR	=	Pars recta
PU	=	Pars uterus
UF	=	Upper fold
UMG	=	Upper mucosal gland
