

ACKNOWLEDGEMENT

I would like to express my sincere appreciation to Assistant Professor, Dr. Sutharin Pathomvanich for her constant guidance, support and encouragement in all aspects of this research. She was always available to give advice and direction whenever I needed it.

I would also like to thank Dr. Supawut Malaikrisanachalee and Associate Professor, Dr Prasert Suwanvitaya for their help and guidance throughout the course of this thesis. Their comments and suggestions were of great value to the development of this research.

I would like to thank the staff of Tianjin Roadway Administration Bureau, China, for providing me the necessary information and expert opinion.

Also thanks to my colleagues in the construction management group at Kasetsart University for sharing the ups and downs of the student life.

Finally I would like to thank my family in China for their irreplaceable dearest support over the years.
