

ACKNOWLEDGEMENTS

I would like to gratefully thank my advisor, Prof. Dr. Jumras Limtrakul, for advice, encouragement and valuable suggestions during my graduate study. Without his help and support, I would never be here today.

I would sincerely like to thank my defensive examination committee members, Asst. Prof. Dr. Supa Hannongbua, and Assoc. Prof. Dr. Piboon Pantu for their time and valuable comments and suggestions. Many thanks are also due to Assoc. Prof. Dr. Yutthana Tantirongrotechai from Department of Chemistry, Mahidol University, for agreeing to be on my external committee.

I want to acknowledge the various funding organizations, The Royal Golden Jubilee Ph.D. Program under The Thailand Research Fund for giving me a chance to spend my lifetime for 6 months to do research work at Rice University, and The Ministry of University Affairs under the Science and Technology Higher Education Development Project (MUA-ADB), as well as The Postgraduate Education and Research Program in Physical Chemistry under Higher Education Development Project Fund, because without their support my work at Kasetsart University would just be a dream.

I would like to heartily thank Dr. Verónica Barone for her suggestion, encouragement and enthusiasm during research work at Rice University. I would like to be greatly indebted to Prof. Gustavo E. Scuseria for his advice. I cannot even begin to explain how thankful I am to all of the graduate students past and present who have always been there for me. Supawan Kasuriya, Wasinee Panjan, Karan Bobuatong, Thanyada Rongrotekongkol, Patchareenart Saparpakorn, Tanin Nanok, Sombat Kettrat, Siritha Asadasuk, Thanaporn Poonsukchareon, Atthawan Benjamaj, ...the list goes on. Special thanks are due to Somkiat Nokbin, Jakkapan Sirijareonsre, Chompunuch Warakulwit, Bavornporn Jansang, Bundet Boekfa, for their awesome company in a warm family named LCAC. Special thanks for my friends and roommates, their wonderful meals made me plenty of full and happiness.

I am especially appreciated my parents, my older and younger sisters for their continuing encouragements. Finally, I would like to thank my precious person, Pipat Khongpracha, who has loved me unconditionally and stood by my side like a rock. Most importantly, he has given me the space and freedom to flourish.

Supawadee Namuangruk
