

ACKNOWLEDGEMENTS

I sincerely would like to acknowledge the efforts of many people who contributed to the research and to this thesis in particular. Without them, the work would have never been successfully completed.

I am profoundly indebted to my thesis advisors Associate Professor Kannika Chutchavalvanich, my thesis committee Associate Professor Dr. Amara Thongpan and Associate Professor Dr. Uthaiwan Kovitvadhi for their valuable advice, guidance, correction and encouragement throughout my research and thesis preparation.

I am very thankful to Assistant Professor Satit Kovitvadhi for his suggestion on the results and discussion parts. I am also indebted to the Zoology Department, Faculty of Science and Aquaculture Department, Faculty of Fisheries for providing the research space.

It is a great pleasure to thank my mother for her moral support. Thanks are also given to my brothers and my friends for their encouragement throughout my research ordeal.

Finally, I wish to thank Ms. Wilailuk Jumroon and Mr. Ittichai Euwsuwan and all the staffs at General Science and Zoology Department, Faculty of Science, for their assistance.

Pramote Chumnanpuen
