

ACKNOWLEDGEMENTS

I would like to thank, first of all Asst. Prof. Dr. Dachanee Emphandhu who opened different perspectives to me and from whom I learned a lot. I would especially like acknowledgement Prof. Dr. Nipon Tangtham, major subject committee member and Assoc. Prof. Chalie Navanugraha, minor subject committee member for their kind consultation and advice until completion of the thesis.

I would also like to thank my student, scientist from Faculty of Environment and Resource Studies, Mahiol University and K.C. multimedia company for their helping and support through the long hours of doing this thesis. I also thank all Sub-district Administrative Organization in Mae Taeng watershed, Chiang Mai province for transferring their knowledge and for always being participatory processes.

I am also grateful all staff from Faculty of Forestry, Kasetsart University for their friendly supports.

Thanks to the KING PRAJADHIPOK and QUEEN RAMBHAI BARNI MEMORIAL FOUNDATION for financial support of this thesis.

Finally, I would like to thank my family, my best friend for always supporting me in everything and Assoc. Prof. Rungjarat Hutacharoen who give me a chance I have done.
