

## **ACKNOWLEDGEMENT**

The work reported in this thesis was carried out during my graduate study in Kasetsart University which is a leading university of agriculture in Thailand.

I am grateful to the Thailand International Cooperation Agency, Royal Thai Government and to the Government of Union of Myanmar, State Peace and Development Council, for awarding the scholarship to me for this graduate study.

For successful completing of my degree here, first of all, I would like to say many thanks to my advisor Assistant Professor Dr. Poonpipope Kasemsap for his advice, guidance and encouragements throughout my study in Thailand.

I wish to express my gratitude to my committee members Dr. Prapon Boonrumpun, Dr. Wibon Chongrattanameteeikul and Dr. Sonprach Thanisawannyangkura for their advice and many helpful discussions to my research works.

Many thanks are also due to the helps and friendships of the teachers, my seniors and my colleagues from Agronomy department, KU. And also this thesis works were successfully finished by many helps of our research team, the scientists and the students of Crop Physiology Lab and Plant Architecture Research Unit Lab, KU.

I would like to extend my great thanks to Maj-General Tha Aye, Chairman of Sagaing Division Peace and Development Council, Commander of North-West Command and his wife Daw Wai Wai Khaing for their valuable advice and kindness to our family during my study time.

I also would like to say many thanks to Dr. Pye Tin, Managing Director of Myanma Cotton and Sericulture Enterprise and also the officers and staffs under the

training section of MCSE and DAP for their kind consideration and helps throughout my study.

Many thanks are also due to my teachers from Yezin Agricultural University and especially to Professor U Tin Nyint of Agronomy Department who gave many research guides to me.

I wish to extend my thanks to my lovely family, my father U Aye Mg, my only elder brother and eight elder sisters for their moral support and encouragements throughout my life.

Finally, I would like to say my sincere thanks to my husband, Major Zaw Min Oo who has very kind patience to me and understanding to me for my studying.

There are no words to express my mother's gratitude for giving a lot of her loves to me throughout my life and also gave very good cares to my only one son Mg Nobel, throughout my graduate study time in Thailand.

THIS THESIS IS DEDICATED TO HER, MY BELOVED MOTHER  
DAW NYEIN HTWE WHO PASSED AWAY ON **JULY 5, 2006** DURING MY  
ABSENCE OF STUDYING IN THAILAND.
