

Kanitha Waiyavud 2007: The Opinion of Students Towards the Provision of Teaching and Learning of the Business Work, Work-Oriented Experiences and Technology for Level 3, Under the Office of the Basic Education Commission, Bangkok Metropolitan Area 2. Master of Education (Business Education), Major Field: Business Education, Department of Vocational Education. Thesis Advisor: Associate Professor Shana Wannoon, M.S. 118 pages.

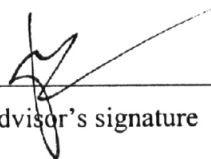

The purpose of this research was to study the point of view of the students towards business education management in Bangkok Metropolitan Area 2, Office of the Basic Education Commission. The study was operated in 5 aspects: curriculum, teacher, learning activities, educational media, and evaluation aspects.

The samples used in this study were 377 lower secondary students (grade 9). Multi-stage random sampling: stratified random sampling and simple sampling were used in the study. The instruments are questionnaire for collecting data, and computer programmed for data analysis. The statistics used for analyzing data were frequency, percentage, mean, and standard deviation.

The research findings were the students point of view for business education management as a whole were very suitable. When considering as each aspect, curriculum aspect, teacher aspect, and evaluation aspect were found very suitable while learning activities and educational media aspects were at moderate level.
