June 18, 2008

To Dean of the College of Engineering

The National Institution of Radiological Sciences, Japan, would like to donate some equipment of radon and thoron measurement system to the Nuclear Technology Department at Chulalongkorn University, Thailand, for supporting the project entitled "Development of Size Distribution System for Dose Assessment Based on Nanosize Radon and Thoron Progeny Aerosols in Mineral Industry". Please see in the attachment a list of items associated with radon and thoron measurement system and a list of their approximate values.

This donation is for educational purposes; therefore, the National Institution of Radiological Sciences is donating this equipment without any conditions.

Sincerely yours

Dr. Shinji Tokonami, Section Head
Research Center for Radiation Protection,
National Institute of Radiological Sciences,
263-8555, Chiba, Japan.

National Institute of Radiological Sciences
4-9-1 Anagawa, Inage-ku, Chiba 263-8555, JAPAN

Donation Item:

Equipment	Approximate Value (JPY)
47 mm open filter holder (aluminum): Qty 1	50,000
25 mm open filter holder (plastic): Qty 1	20,000
25 mm open in-line filter holder (plastic): Qty 2	40,000
2 stages of 47 mm open filter holder (plastic): Qty 1	40,000
Mini air pump (flow rate 0.5-3 L/min) : Qty 1	110,000
Mini air pump (flow rate 0.1-1 L/min) : Qty 1	110,000
Zn(Ag) sheets (50 Discs)	60,000
400 mesh wire screen (10 Discs)	20,000
Total amount	450,000
